

## Rabbit Class Homework - Autumn Term 2 2022

We have given you weekly activities that **must** be done in blue. We have then given you 6 activities to choose from and would like you to complete at least 3 of these activities over the Autumn term. Remember that these activities, while encouraged, are optional. We are hoping you will put a lot of effort for each piece and you will enjoy sharing all your hard work with the rest of the class.

Must do (weekly)	Spellings	Times tables (TT Rock Stars)	Reading (at least 3 times a week)
<b>Could do activities (During term 2)</b>	<p style="text-align: center;"><u>Water, water, water</u></p> <p>Your task is to keep a log of the amount of times you use water over a week. Include what you have used water for such as cooking, washing etc. Bring your log into school to share with the class.</p>	<p style="text-align: center;"><u>Water cycle</u></p> <p>Your task is to create a 3D model of the water cycle. It is up to you how you make it. Once it is complete, bring into school to go on display. Happy creating!</p>	<p style="text-align: center;"><u>Christian Values</u></p> <p>The Christian values at Derry Hill School play a big part in our day. Think about how you can show particular Christian values at playtimes and lunchtimes. Draw a picture/cartoon demonstrating how you can show different Christian values during these times.</p>
	<p style="text-align: center;"><u>Stormy skies and seas</u></p> <p>We will be looking at the works of J.M.W. Turner this term in Art. Our final piece will be painted using a variety of techniques. At home, can you create a collage of a stormy sky and sea scape using a range of materials or scraps of paper/magazine cut outs?</p>	<p style="text-align: center;"><u>Cloud diary</u></p> <p>As part of our science learning we will be discussing the different types of clouds and how they form. Do some further research on this and then keep a 'cloud diary' for a week - including what you notice about the weather and a brief explanation about how each cloud type has been formed.</p>	<p style="text-align: center;"><u>Picture book</u></p> <p>Our story focus this term is Flotsam. This is a picture book with no words at all. Can you create your own picture book? Plan out the story first, think about the best illustrations to draw to get your story across to the reader without words, and then bring your story into school to share with everyone once it is finished.</p>
<b>Optional research project</b>	<p>Rivers around the world</p> <p>Research a famous river and produce a power point or leaflet about your chosen river. Where is in the world? Why is it famous? How long is it? What are its uses?</p>
