Derry Hill C of E Primary School		Yea	ar 2: Term 3: Spring 2024
National Curriculum Subject	Key Vocabulary	Key Skills and Knowledge	Learning Intention and Implementation
Geography	compare map	Key Skills: Identify human and physical	LI: I can sort geographical features into those that are human and those that are physical. I can identify those that are in Africa and those that are in the UK and say how I know this.
Compare Addis Ababa, Ethiopia to Bath in the UK	globe continent country Equator	features around Derry Hill and Bath. Identify human and physical	Lesson 1: Children learn the meaning of Human and Physical features in Geography. They sort pictures of features into the two groups. Children share existing knowledge on Bath and Addis Ababa and then sort features according to which place they belong to.
How is life in East Africa different to life in the UK? North Adanta Coron WorldAtlas.com WorldAtlas.com AFRICA Fethiopla Feth	Africa Europe climate landmark physical features human features population land-use	features around Addis Ababa in Ethiopia. Discuss similarities and differences between lives in the two areas. Suggest how my life might be	LI: I can locate Addis Ababa and Bath on maps and describe the climate in each place. I can say how this affects how people live. Lesson 2: Children watch short videos explaining climate and weather, and how this relates to different places on the earth (the equator / coasts / poles). They look at simple tables / charts showing weather patterns in Bath and Addis Ababa and compare the two places. They also look at the weather in another place in Ethiopia – the Danakil Depression. LI: I can compare the populations of Addis Ababa and Bath and talk
5000 Am		different if I lived in Addis Ababa.	about jobs that people do. I can describe features of life in each country, including celebrations.

Use map and atlas skills to locate Bath and Addis Ababa and identify features nearby, such as rivers and the Equator.

Identify weather features in Ethiopia and the UK and link these to their position in the world.

Key Knowledge:

I know what human and physical geographical features are and can give examples of these from my area, and from the area around Addis Ababa in Ethiopia.

I can describe similarities and differences between the two areas related to climate, population, currency, land use, language and festivals. **Lesson 3:** Children use data fact files for Ethiopia and the UK, based on Worldometer, to write sentences comparing the two countries. They discuss why these differences might exist and how they affect people's lives. Children read a description of an Ethiopian festival and teach other people in the class about it.

LI: I can describe common uses of land in the areas around Bath and Addis Ababa and landmarks in the areas. I can say if they are human or physical landmarks.

Lesson 4: Children use maps and photographs to identify key landmarks and features of the areas around Bath and Addis Ababa. They describe and compare two of the features.

LI: I can compare my life in the UK to what it would be like if I lived in Addis Ababa. I can describe common festivals in Ethiopia.

Lesson 5: Children watch 3 short videos of children's lives in Ethiopia and discuss how it is different from their lives. They write a paragraph comparing their life here to life in Ethiopia.

		I can locate the Equator on a world map and show where Ethiopia and the UK are in relation to this. I can explain the difference between a capital city, a city, a town and a village.	
Science	question	I can compare the differences between	Lesson 1&2: Living, dead, never lived.
Living things and their habitats.	answer	things that are living, dead and have never	LI: To explore and compare the differences between things that are living, dead, and things that have never been alive by thinking about life processes.
2.4	observe	been alive.	To use their observations and ideas to suggest answers to questions by explaining how
	equipment identify classify sort group record data compare describe habitat season environment weather conditions living	I can answer questions about things that are living, dead or have never been alive. I can map a habitat and identify what is in it. I can classify objects as those that are living, dead and those that have never been alive. I can identify animals in their habitats.	Sorting living/dead/never alive. Looking at MRSGREN as a way of identifying living beings. Exploring school to sort using above classification. Lesson 3&4: Local Habitats LI: To identify and name a variety of plants and animals in their habitats, by mapping a habitat and identifying its inhabitants. To identify and classify, and sort objects into categories by sorting objects that are living, dead and have never been alive. Map the school area. Mark on map what is living/not living on the map. Classify and sort items found into living/dead/never alive categories. Lesson 5&6: Microhabitats and World habitats. LI: To identify and name a variety of plants and animals in their habitats, including microhabitats by identifying minibeasts in microhabitats.

dead map minib anima plant food chang	I can describe a habitat and identify	habitat of minibeasts. Minibeast hunt. Use information to describe the characteristics of microhabitats and make comparisons with other habitats. To identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, by researching habitats and the animals that live in them. Look at other animals and plants around the world. How does their habitat accommodate their living needs?
	living things in a habitat depend on	describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other by considering the adaptations of

RE

Does praying at regular intervals every day help Muslims?

Start to learn about Islam and how prayer is important in this faith. Understand what commitments are and why they are important within the Islamic faith. Show understanding of the Islamic prayer routines and what this means to Muslims.

Islam Muslims commitment Allah Salah ritual The Qu'ran prayer mat 5 times a day washing - Wudu head-covering Mecca compass Kaaba intention angels mosque community united

Key Skills:

Give examples of how Muslims believe prayer helps them in their everyday lives. Explain the reasons prayer helps with these.

Explain why commitments are difficult and how it feels to meet a goal.

Show empathy with people of a different faith and show tolerance and understanding of difference.

Key Knowledge:

I can explain what a commitment is and why prayer is a commitment to their faith for Muslims.

I can describe how it feels to have to stop doing something to reach a target that I have set. LI: I explain what a commitment is and can discuss why making a commitment can be difficult.

Lesson 1: Discuss how it has felt to make a class commitment to keeping fit since coming back this term. Has it sometimes felt difficult? Why? Look at other commitments, such as sports clubs or reading every day and talk about why they are sometimes hard but also important. What commitments do people make as part of their religion?

LI: I can show how Muslims pray and talk about key items and places in the prayer ritual.

Lesson 2: Watch a video of Muslims praying and listen to a boy describing what they do and why. Role play Muslim prayer and draw / label key items / features of the prayer ritual.

LI: I can sequence and explain the different steps in the Islamic prayer ritual and say why they are important to Muslims.

Lesson 3: Children see what they can remember about how Muslims pray. They sequence pictures to show what Muslims do before they pray and during the prayer. They write a summary of what happens and why each step is important.

LI: I can explain how praying 5 times a day gives Muslims time to focus on God and think about how this might make them feel.

I can describe common Islamic images.

Lesson 4: Children take part in a mindful meditation based around God and nature. They discuss how it feels to stop and just be quiet and focused for 5 minutes. They consider how prayer might help Muslims do this. Children learn about common Muslim religious images and use these to design a prayer mat.

LI: I can discuss how the Islamic ritual of prayer helps Muslims in their everyday life.

Lesson 5: Children discuss why praying 5 times a day might be difficult and decide whether they think they would be able to do it regularly. They

		I can use the right words to explain how Muslims pray. I can explain why Muslims pray in the way they do.	identify 3 things that they think praying 5 times a day would help a Muslim with and explain why.
PSHE Similarities & Differences The Human Body Growing Up Exercise	similar / similarity difference private puberty growing up develop / development body part names touch rights appearance emotions needs dependence / independence	Key Skills: Listen to and respect other people's views and feelings. Work cooperatively with others, taking turns and sharing as appropriate. Understand how to keep myself safe around different people, especially in relation to my body. Recognise how I can start to develop more independence as I get older. Understand how to make simple choices to improve	Children will start this term by considering the similarities and differences between boys and girls and will discuss whether boys and girls can do similar things. They will then go on to identify different parts of our bodies and reflect on differences between male and female bodies and how these change as they get older. Children will be reminded of those parts of their bodies which are private and talk about how we keep some parts of our body covered up to keep us safe. They will learn that they have the right to ask people not to touch their bodies and will discuss how to say 'no' when something does not feel comfortable to them. Children will also think about emotional changes as they get older and how they experience different things at different ages. Children will identify things that they needed when they were babies and discuss which of these things they still need now. They create a visual picture of their needs and who provides what they need, and discuss how these might change as they get older. Children explore how muscles work and how we can ensure that they become strong. They try some simple exercises that can help their muscles become stronger, as well as discussing how diet can help with this. Children will discuss why physical exercise is important for their

my health and health and how much they should do before identifying activities that well-being. provide this exercise and planning and healthy weekend. **Key Knowledge:** I can recognise, discuss and respect similarities and differences between boys and girls. I can reflect and comment sensibly on differences in male / female bodies and how these change as we grow older. I can sort common characteristics and experiences according to the age when they most likely happen. I can identify my needs now and compare these to needs I had as a young baby. I can say how my needs will change as I get older. I can describe how muscles work and explain why

		healthy eating and physical exercise are beneficial.	
P.E. Real Gym: Health and Fitness Learn and develop balance and travel on the floor and apparatus in different ways	Gym: balance apparatus movement shapes control body tension support skip cat-leap gallop side-step crab-walk	Gym Key Skills: I can develop and apply balance on the floor and apparatus. I can move and land safely when travelling between floor and apparatus. I use equipment appropriately. I am aware of why exercise is good for my health. I can support my peers and work successfully as part of a team.	Real Gym Lesson 1: I can develop my control when balancing in a variety of body positions on the floor. I can mirror a partner a move with control from one position to another. Lessons 2 and 3: I can develop my control when balancing on low and high apparatus using a variety of body positions. I can support my partner and understand how to stay safe on the apparatus. Lesson 4: I can travel across the floor with a variety of steps, changing speed when instructed. I can move safely and be mindful of others in the space. I can work in a team to design a movement pathway using a variety of shapes and steps. Lesson 5: I can travel on apparatus with a variety of steps, showing how to stay safe when moving from ground to apparatus. I can control and spin a hula hoop using my body.
