

Where did the mother owl go on her journey?

Clay is used to create sculptures.

Clay can be manipulated in many ways:

Rolling

Smoothing

Pinching

Squeezing

Carving

A sculpture is a piece of 3D art made by constructing, modelling, and carving.

We can use various materials to add texture to our artwork, for example:

Adding feathers to masks to make them look more realistic.

Using sponges when printing adds texture.

Key Vocabulary:

Texture	Sculpture	Clay	Pinch
Roll	Smooth	Squeeze	Carve
3D	Construct	Model	Materials
