

# Science Knowledge Organiser Space

## Key skills

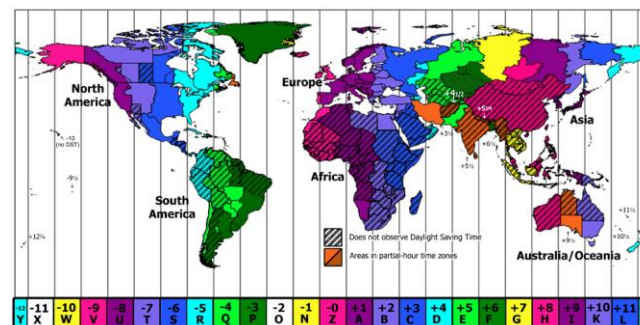

Take sets of observations or measurements where appropriate, identify the ranges and intervals used.

Begin to record data results of increasing complexity using scientific

## Key knowledge

The sun, Earth and Moon are spherical.  
There are 8 planets in our solar system.  
Pluto is a dwarf planet.  
The Earth orbits around the Sun while rotating on its axis creating day and night.  
The moon orbits the Earth.

*Rotates, Axis, Solar system, planet, line graph, orbit, measure, record, sunrise, sunset, longitude, phases of the Moon, atmosphere*
