

# How have toys changed?

Toys have changed over time in a number of ways:  
 The materials used to make them, the technology used to create them, the colours of toys and how safe they are to play with.

The name 'teddy' bear comes from former United States president Theodore Roosevelt who was often referred to as Teddy. In 1902, Morris Michtom saw a cartoon of the president with a bear and came up with the idea to create a stuffed toy bear.

A timeline shows us things that have happened in the past and works its way up to the present day.

Key Vocabulary:						
History	Past	Present	Future	Order	Old	New
Material	Properties	Toy	Electricity	Battery	Wood	Metal
Plastic	Colourful
