D&T

Autumn Term 2:

Moving Pirate pictures, 3D Pirate models and sewing a Christmas Decoration.

design: To create plans and drawings of how something is made.

lever: A beam pivoted at a fixed hinge.

pivot: The central point on which a mechanism turns.

slider: A mechanism which moves in a straight line horizontally or vertically.

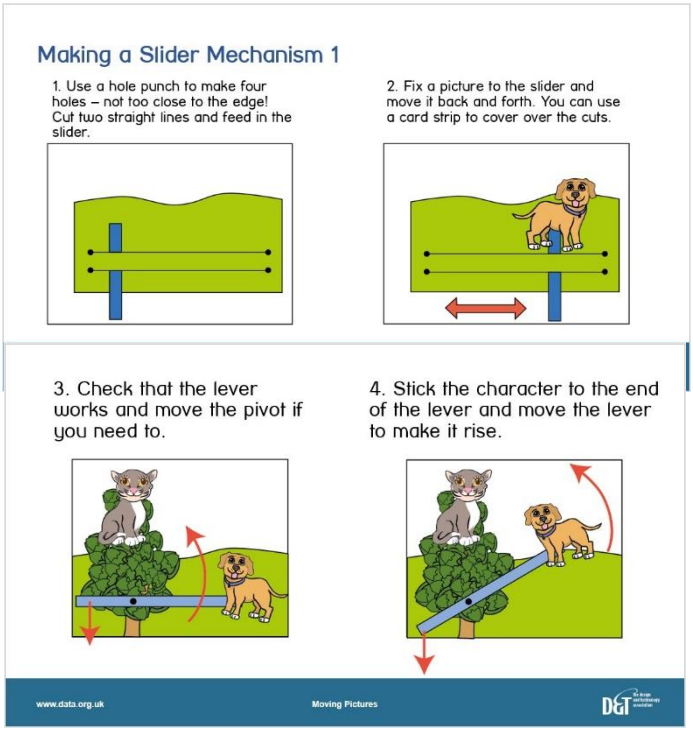

3D: Something with three dimensions.

attach: To join one thing to something else.

thread: A yarn used to attach two pieces of fabric together.

needle: A sharp tool that holds the thread to sew.

sew: Join or fasten by making stitches with a needle.

A 3D model made from recycled objects.
